<p>Instruções de uso:</p> <ul style="list-style-type: none"> -Retirar, com os devidos cuidados de asepsia, o sistema de administração de sangue da embalagem individual. -Verificar as suas conexões antes de o utilizar. <p>Sistema com bureta:</p> <ul style="list-style-type: none"> -Fechar o clamp e a rampe. -Inserir o perfurador no saco se sangue. -Abrir o clamp. -Encher a bureta na quantidade necessária. -Fechar o clamp. -Cuidadosamente, presionar e encher a câmara de sangue de forma a garantir que toda a superfície do filtro (interior e exterior) fica completamente coberta. -Abrir a rampe. -Purgar o sistema. Certifique-se que todo o ar é removido pela purga do sistema antes de o utilizar. <p>Sistema com câmara de sangue:</p> <ul style="list-style-type: none"> -Fechar a rampe. -Retirar a tampa protetora do perfurador. -Inserir o perfurador no saco de sangue. -Cuidadosamente, pressionar e encher a câmara de sangue de forma a garantir que toda a superfície do filtro (interior e exterior) fica completamente coberta. -Fechar a rampe.  <p>Common Instructions to both systems:</p> <ul style="list-style-type: none"> -Connect the system to patient. Open the roller clamp. The blood flow rate must be adjusted with a ramp, at the beginning and controlled during the transfusion. To interrupt or stop transfusion, close roller clamp. <p>Characteristics:</p> <ul style="list-style-type: none"> -Sterile if pack un-opened and un-damaged. Non pyrogenic. Free of latex and phthalates. -Standard connection to patient IV catheters. Limited exposure contact device (maximum contact duration of 24 hours). -It is recommended that no transfusion sets be used for more than 6 hours. -The Centers for Disease Control, the Perfusion Nursing Society (USA) and other organizations publish useful guidelines for developing local guidelines. Consult local protocols. <p>Intended use:</p> <ul style="list-style-type: none"> The blood administration sets are single-use, sterile devices intended to channel blood, plasma or other components for the purpose of transfusion into the body. <p>Warnings</p> <ul style="list-style-type: none"> -Read Instructions for Use (IFU) before using the device; -Do not use if the package is open or damaged. -Do not use if protective caps are loose or missing. -Verify all connections prior use; If the device is damage, discard it; -The product is sterilized for single use only. Discard after single use. -Please do not clean and do not reuse. A reuse of the device may cause harmful infections, injury or death. -The product with the graduated chamber has no measurement function. -Do not use after expiry date. If over it, please discard it; -Store in a dry place and between 5 to 35°C; -Cleaning solutions and disinfectants may deteriorate the materials used for bloodlines and should not be used. Used products are subject to disposal and destruction procedures in accordance with current legislation in the country in which the Bloodlines are used. If necessary, waste will be disposed of by an accredited organization in accordance with applicable legislation. <p>Performance:</p> <ul style="list-style-type: none"> Based on the instructions for use mentioned above and the capacity of the device to allow the ratio of each milliliter to be equivalent to 20 drops, the device presents a good performance. <p>Residual Risks / Side Effects:</p> <ul style="list-style-type: none"> No known complications when used according to intended purpose. <p>Vigilance</p> <ul style="list-style-type: none"> In case of serious incident related to the device, contact the manufacturer or the National Competent Authority. <p>If additional operating instructions are required, these can be requested from the manufacturer or can be obtained from the PMH homepage: https://www.pmh.pt/familia200info/</p> <p>Riscos residuais / Efeitos Secundários:</p> <ul style="list-style-type: none"> Não são conhecidas complicações quando utilizados de acordo com a finalidade prevista <p>Vigilância</p> <ul style="list-style-type: none"> Em caso de incidente grave relacionado com o dispositivo, contactar o fabricante ou a Autoridade Competente Nacional. <p>Se forem necessárias instruções de utilização adicionais, estas podem ser solicitadas ao fabricante ou podem ser obtidas na página inicial da PMH: https://www.pmh.pt/familia200info/</p> <p>Precauções:</p> <ul style="list-style-type: none"> -Leer las instrucciones de uso antes de usar el dispositivo; -No usar si el paquete está abierto o dañado. -No utilizar si los tapones protectores están sueltos o no existen. -Verifique todas las conexiones antes de usar; Si el producto está dañado, desecharlo; -El producto está esterilizado para un solo uso. Desechar después de su uso. No limpiar ni reutilizar. Una reutilización del dispositivo puede causar infecciones, daños graves o muerte. -El producto con bureta no tiene función de medición; -No utilizar después de la fecha de caducidad. Si ha caducado, desechar el dispositivo. Almacenar el producto en un lugar seco entre 5 y 35°C. Las soluciones de limpieza y los desinfectantes pueden deteriorar los materiales utilizados para las líneas de sangre y no deben utilizarse. <p>Desempenho:</p> <ul style="list-style-type: none"> Em base às instruções de uso mencionadas encima e a capacidade do dispositivo para permitir que a proporção de cada mililitro seja equivalente a 20 gotas, o dispositivo apresenta um bom desempenho. <p>Riscos residuais / Efeitos secundários:</p> <ul style="list-style-type: none"> As complicações conhecidas quando utilizados de acordo com a finalidade prevista. <p>Vigilância</p> <ul style="list-style-type: none"> No caso de um incidente grave ligado ao dispositivo, contacte o fabricante ou a Autoridade Nacional Competente. <p>Informação contida na embalagem primária / Label information</p> <table border="1"> <thead> <tr> <th>REF</th> <th>Product Reference</th> <th>Use-by date</th> <th>Tube Diameters</th> <th>CE 2797</th> <th>CE marking with Notified Body Number</th> <th>Warning</th> <th>15 µm</th> <th>15 Micra pore size liquid filter</th> <th>35°C</th> <th>Temperatura Limit</th> <th>20 ml</th> <th>Drops per milliliter</th> <th>P Pressure</th> <th>Compatible for use with pressure</th> <th>STERILE</th> <th>Do not resterilize</th> <th>DEHP SEM DEHP</th> <th>Does not contain DEHP</th> <th>Keep way from sunlight</th> <th>UDI</th> <th>Unique Device Identifier</th> <th>Manufacturer</th> </tr> </thead> <tbody> <tr> <td></td> <td>Date of manufacture</td> <td>LOT</td> <td>Batch code</td> <td>Tube Dimensions</td> <td>MD</td> <td>Medical Device</td> <td>EU indicat</td> <td>Instructions for use in the QR code</td> <td>TOTM</td> <td>Plasticized in TOTM</td> <td>AIR STOP</td> <td>AirStop</td> <td>STERILE</td> <td>Sterilized using ethylene oxide</td> <td>Gravity</td> <td>COMPATIBLE</td> <td>VOL</td> <td>Storage volume</td> <td>LATEX SEM LATEX</td> <td>Does not contain natural rubber latex</td> <td>Non-pyrogenic</td> <td>Keep dry</td> <td>Distributor</td> </tr> </tbody> </table>	REF	Product Reference	Use-by date	Tube Diameters	CE 2797	CE marking with Notified Body Number	Warning	15 µm	15 Micra pore size liquid filter	35°C	Temperatura Limit	20 ml	Drops per milliliter	P Pressure	Compatible for use with pressure	STERILE	Do not resterilize	DEHP SEM DEHP	Does not contain DEHP	Keep way from sunlight	UDI	Unique Device Identifier	Manufacturer		Date of manufacture	LOT	Batch code	Tube Dimensions	MD	Medical Device	EU indicat	Instructions for use in the QR code	TOTM	Plasticized in TOTM	AIR STOP	AirStop	STERILE	Sterilized using ethylene oxide	Gravity	COMPATIBLE	VOL	Storage volume	LATEX SEM LATEX	Does not contain natural rubber latex	Non-pyrogenic	Keep dry	Distributor
